A concise summary from Mr Baaijen, this is essential reading for Putin and Dump fans

He provides an excellent historical perspective

I've just posted the intro of the first 3 sections, see link above for full detail

==========

America's first betrayal of Europe: Hitler

Over 200 million people were killed and many more maimed and traumatized in what I call *The Great 20th Century Slaughter of Eurasia*. Glafia's main proxies in this gigantic operation were British, American and Zionist "elites", although "gangsters" is a better word: they set up all bogeymen, Hitler included. Evidence that WW1 was staged by the US and the UK (in collaboration with France and Russia) can be found *here* (*Hidden History*, Docherty and MacGregor) and *here* (*Prolonging the Agony*, same authors). Over 20.000 Americans became millionaires through this war, and they couldn't wait to repeat it. Definitive proof of the crucial American and British role in setting up Hitler and Nazism as their bogeyman in WW2 can be found *here* (*Conjuring Hitler*, G. Preparata) and *here (Two World Wars and Hitler,* MacGregor and O'Dowd, upcoming*)*.

America's second betrayal of Europe: Communism

The biggest event in Russian history was the Communist or Bolshevist Revolution, "one of the boldest and bloodiest politico-economic experiments in human history" (T. Boardman). We all know the official narrative: a grassroots movement of discontent Russian citizens directed by idealistic leaders Vladimir Lenin and Leon Trotsky removed an obsolete, suppressive, and backward regime. Repetitions of this Red Terror (although on a smaller scale) occurred in Germany, Hungary and Spain.

However, for at least 50 years there has been convincing evidence that Glafia's globalist and capitalist bankers were the main organizers and financiers of this devastating, "anti-capitalist" episode. And that "revolutionary leaders" Lenin and Trotsky, behind their idealistic veil, were lavishly financed mercenaries of these bankers, who after their great victory amassed millions of dollars in foreign bank accounts.

The extremely well documented researcher Antony C. Sutton followed the money and business trails to Bolshevism in his book *Wall Street and the Bolshevik Revolution* (1974). Docherty and MacGregor further documented how the bankers staged this "Revolution" (see *The Rape of Russia*). It's only due to the "neglect by the official historians" and the consequent and systematic suppression by the mainstream media that this knowledge never became public.

The Alternative View Presents Roger Anderton

Date: 4 May 2025

Time: 11:00 - 16:00

Location: The Assembly Rooms, Glastonbury, Somerset, UK

"Einstein Wrong and Special Relativ

With the birth of the Global Digital Prison plan (announced in Brzezinski's 1970 book *Between Two Ages*), and Glafia's decision to end American hegemony and "to go East" for the first time in history, the Soviet experiment became obsolete, and Glafia pawn Gorbatsjov finished it off in 1991. Soon thereafter, *Fidel Castro,* Glafia's CIA top agent in Cuba, *said: "The next war in Europe will be between Russia and Fascism, except that Fascism will be called Democracy." No prophesy, just insider information, on the most recent Glafia-staged war, in the Ukraine.*

In the early 90's, Russia was first opened to capitalism via shock therapy (by "Team Harvard" as destroyer, starring leftist Jeffrey Sachs, who is now trying to recover his blemished reputation), ending in planned disaster and looting, from which it was then "saved" by Putin, the frontman of Russia's new "*Glafia-subordinate elite*", which robbed the country from its riches on behalf of Glafia's bankers. That and the flat bombings made gangster Putin very popular (see *Putin's False Flag*, by Iain Davis).

By the way, Putin was already selected in the early 1990s (when he still worked temporarily as a taxi driver in Moscow), by none other than Henry Kissinger, since the 1970's also the mentor of Klaus Schwab! I suppose that mentor Kissinger told Putin long ago that a strong Russia was needed for Glafia's West-East shift, and that the war predicted by Castro would be the price for his and Russia's meteoric career (just as in the 19th century, when mentor Bleichröder told Glafia pawn Bismarck that war would be the price Germany had to pay for its meteoric rise). MH17, Skripal, Russia's role in Syria, NATO's deliberate expansion to the Easty, it all fits this script.

Klaus Schwab admitted several times that Putin was trained at the WEF as one of his many Global Young Leaders. An important goal was to make Russia a worthy partner – in fact a vassal – for China, Glafia's designated hegemon for Glafia's *multipolar world order* plan, also prepared by the lovely Henry as shown above. The role of the Orthodox Church as a purveyor of traditional Russian values is just another official narrative, for public consumption only. If that sounds unlikely, consider that Putin's Russia fails the litmus tests for Covid, CBDC, Agenda 2030, its BIS controlled Central Bank, etc. As *Iurie Rosca* states: **"Despite major conflicts between various countries, they are all submissively following the same globalist agenda". He adds:**

> *The false pandemic launched in 2020 has confirmed beyond any doubt that Russia, like China and the other BRICS countries, are subject to a single command center, [which is not America, but the Global Mafia].*

January 2025: The Donald enters the stage

In just one month of his presidency, *Rothschild pawn Trump* has radically reshuffled the cards. If you believe *globalist pawn Alexander Dugin*, Trump's victory is pushing an anti-globalist *conservative revolution.* Iurie Rosca explains *here* why he is a liar.

Trump's turbulent theater marks the newest episode planned by the very same criminal globalists. Far from leading a revolution as Dugin claims, Trump's actions fit wonderfully well in Glafia's domination plan for the 21st century. Trump understands well that a new multipolar wind is blowing – as Marco Rubio openly admitted – and is accelerating Glafia's two main projects under this new paradigm:

1. The transformation of the USA **from a global to a regional power**, so China, assisted by Russia, can be made Glafia's fifth global hegemon. The USA will be retracting to "fortress America", one of the world's "poles", which explains Trump's blunt bluff to annex Greenland, Canada and Panama. This "end to MacKinder's theory" could have very positive consequences for Europe – once its leadership is changed and starts again to cooperate and trade with Russia, its natural business partner.

It may even mean a better future for the Palestinians. The crazy and inhuman Trump-A-Lago proposal could be a wake-up call for Israel: make peace, otherwise America will stop to fill your bottomless pit: we just want to do business! Of course, China, one step away from world leadership, has no interest at all in the continuation of this senseless conflict.

2. The rollout of the many decades old **Global Digital Prison** plan, to control and coerce all humans individually. This DigiGulag, an energy-guzzling hi-tech control grid tested and approved in China, is now installed under a shiny new brand: Stargate! It even includes a personalized mRNA "health gift" from Trump and Elon's billionaire team to We, The People! I highly recommend you to read *this article on the triumph of technocracy* by Eric Wikström.

However, Trump's promise of the Golden Age of America will prove to be utterly false: the previous post-WW2 golden era was only possible because the USA had just killed, maimed and ruined its potential Eurasian competitors, as explained above. Presently, Russia and China are stronger than ever, and united. Today, the USA is dangerously de-industrialized, and Trump's tariffs aren't going to change that, but will backfire. And the US dollar represents now less than 60% of the world reserve currencies, from almost 100% after WW2. Moreover, Trump is not cleaning up the real "deep state" (Glafia's financial and corporate tentacles), but just the excesses of corrupt left-wing politics.

We are told the speed of light cannot be exceeded. What if that is wrong? What if Einstein was wrong and the theory of General Relativity is incorrect? Could that open up a whole new world of possibilities?

In May 2025 The Alternative View returns to Glastonbury where Roger Anderton will be asking those questions and putting forward an exciting new model.

Roger Anderton is from the John Chappell Natural Philosophy Society – a group that was formed on the idea that Einstein's relativity is wrong (especially special relativity is wrong). In relativity there are many paradoxes (such as twin paradox) which are really contradictions; thus the believers in relativity are talking nonsense. In trying to get this information out to the general public we have found our voice has been mostly blocked.

For first time in UK we are presenting publicly the film Einstein Wrong by David de Hilster which has been prevented from being shown at film festivals. Physics has been corrupted by relativity nonsense.

Event hosted by Gary Fraughen.
